

ABOUT

I am a DevOps Engineer with over 9 years of experience on public cloud ecosystems (Azure & AWS) and on-premises (VMWare Cloud Foundation & Nutanix). I support companies in the modernization, and simplification of their development processes with self-service cloud service catalogs (private and public), CI/CD pipelines that enforce guardrails and best practices, robust and secure developer platforms that accelerates products development and minimize time-to-market.

SKILLS

Public Cloud	AWS · Azure
--------------	-------------

Private Cloud	VMWare Cloud Foundation · Nutanix
---------------	-----------------------------------

Infrastructure as code	Terraform · OpenTofu · Ansible · CloudFormation · CDK
---------------------------	---

CI/CD	GitHub Actions · Azure Pipelines · GitLab CI
-------	--

Scripting	Python · Go · TypeScript · Bash · PowerShell
-----------	--

Platform engineering	Service Catalog · Internal Developer Platform
-------------------------	---

Containers	Docker · Kubernetes
------------	---------------------

Observability	CloudWatch · Azure Monitor
---------------	----------------------------

Certifications	AWS Certified CloudOps Engineer – Associate · AWS Certified Solutions Architect – Associate · Azure Administrator Associate (being renewed) · Azure Solutions Architect Expert (expired 2024)
----------------	---

EXPERIENCES

Since Jun 2026

DevOps Consultant

RATP (via Astrelya) · Noisy-le-Grand, France

- Impact:
-

Apr 2024 –

Dec 2025

Cloud Consultant

AXA Group Operations · Paris, France

- Built reusable infrastructure accelerators (Terraform modules) reducing deployment time from days to minutes for AXA cloud broker teams
 - Automated infrastructure provisioning pipelines (GitHub Actions & Azure DevOps), enabling cloud brokers and entities to self-service deploy infrastructure
 - Delivered technical documentation and onboarding workshops enabling easy adoption
 - Impact:
-

Sept 2021 –

Jan 2024

Cloud Engineer

Air France (via Accenture) · Paris, France

- Designed and implemented a Database-as-a-Service offering for Oracle, PostgreSQL, Cosmos DB and MongoDB Atlas
 - Automated database provisioning with Terraform & Ansible Tower
 - Built the monitoring and alerting stack (EventHub + Centreon) for the Oracle database service
 - Collaborated with the AFKL database team through technical workshops to gather requirements and ensure seamless integration
 - Authored comprehensive user guides for database and application teams
-

Oct 2020 –

Jul 2021

Automation Engineer

Sanofi (via Accenture) · Paris, France

- Inherited and optimized 10+ Ansible playbooks automating repetitive tasks on VMware infrastructure
- Conducted a comprehensive audit of existing automation, identified gaps, and delivered a remediation plan adopted by the operations team
- Implemented 8 new automation workflows based on customer requirements gathered through technical workshops
- Mentored a junior engineer on Ansible, Linux, Git and cloud, accelerating their onboarding

Jun 2020 –
Sept 2020

Cloud Engineer

Sanofi (via Accenture) · Paris, France

- Delivered a production-ready service catalog on Tencent Cloud, including VM and PostgreSQL database provisioning and management
- Automated infrastructure provisioning with Terraform and GitLab CI
- Trained the Accenture India operations team (5 engineers) on Git/GitLab workflows, enabling autonomous infrastructure management
- Authored a comprehensive operations guide adopted by operations teams in India

Mar 2019 –
Sept 2019

Cloud Engineer

Eutelsat (via Ekino) · Levallois, France

- Deployed development and production cloud infrastructure on AWS using Troposphere/CloudFormation
- Implemented centralized logging with the ELK stack, enabling real-time troubleshooting
- Configured AWS Batch jobs for video transcoding workloads

PROJECTS

2026

Tendr by Axelo

Owner · tendr.axelohq.com

Tender aggregator for West Africa

- Official sources scrapping
- Serverless architecture on AWS
- Data extraction and classification with Amazon Bedrock

2026

AWS Platform Engineering Starter Kit

Owner · github.com/beckojr/aws-platform-starter

Production-ready template for Internal Developer Platforms on AWS.

- Multi-account architecture
- Self-service infrastructure via Service Catalog
- Security automation with AWS Config

EDUCATION

2017

MS Computer Science

Polytech' Nantes · Nantes, France

Major: Networking, Systems, and Cloud
